

CHORUS AUDIO RACK

CHORUS AUDIO RACK

The modular audio rack is built with 30 mm solid hardwood and stainless steel spikes. This unique and functional model gives you the ultimate listening experience. Each of the four tiers is separated with stainless steel spikes to ensure that there is no transmission of vibrations and frequencies across tiers - giving superior clarity and stability to the music. Its integrated wire management and open design ensure adequate airflow to keep your equipment cool. Being modular, this rack opens up exciting opportunities to adapt easily to your future needs
